EXECUTIVE PROFILE

Results-driven **AI Automation Specialist** and **Web Development Expert** with demonstrable track records in engineering autonomous multi-agent systems, mission-critical API/webhook architectures, and high-performance modern web platforms. Formally certified by the **As-Sunnah Skill Development Institute (ASSDI)** in advanced AI automation and modern application architectures. Founder of **Karvion Labs** and **Karvion English Cartoons**, adept at transforming complex enterprise workflows into automated digital systems that cut operational overhead, accelerate release cycles, and deliver measurable revenue growth for forward-looking organizations.

CORE TECHNICAL COMPETENCIES

AI & Autonomous Systems:	Multi-Agent Workflow Orchestration, OpenAI & Gemini APIs, n8n, Make (Integromat), Flowise, Advanced Prompt Engineering, Autonomous Business Logic, Voice & Multimodal AI.
Full-Stack Web Engineering:	Next.js 15 (App Router), React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Node.js, Express, Python, PostgreSQL, Prisma ORM, Supabase, Git/GitHub.
APIs & Cloud Integration:	RESTful & GraphQL API Architecture, Secure Webhook Listeners, Automated ETL Pipelines, JSON Schemas, Telephony & SMS Gateways, Docker, Linux/Bash.
Growth & Digital Marketing:	Meta Ads Manager, Conversions API (CAPI), Pixel Diagnostics, Automated Lead Capture Funnels, Audience Segmentation, Content Pipeline Automation.

PROFESSIONAL EXPERIENCE & LEADERSHIP

Founder & Lead AI Automation & Web Development Expert — Karvion Labs `2026 - Present | Chattogram & Dhaka`

- Founded and lead **Karvion Labs**, a modern technology initiative engineering automated enterprise workflows, high-speed web applications, and data-driven digital growth strategies for brands and SMEs.
- Architected and implemented **multi-agent AI automation pipelines** connecting CRMs, databases, and customer communication channels, slashing manual data-entry by **70%** and saving **20+ hours** of repetitive staff overhead weekly.
- Engineered responsive, production-ready web platforms and enterprise dashboards using **Next.js, TypeScript, and Tailwind CSS**, achieving 95+ Google Lighthouse scores and sub-second rendering speeds.
- Directed data-backed Meta marketing operations (Facebook & Instagram), orchestrating Server-Side CAPI tracking, pixel optimization, and automated A/B split testing to generate high-intent inbound leads.
- Produced in-depth technical video masterclasses across official **YouTube and Facebook** channels, training developers and businesses on deploying practical AI tools and scalable web systems.

Founder & Creative Pipeline Director — Karvion English Cartoons `2026 - Present | Digital Media Platform`

- Spearheaded an educational animation channel on YouTube and Facebook providing value-based, engaging English language lessons tailored for children and young learners.
- Engineered an automated content production pipeline integrating generative AI for storytelling scripts, automated neural voiceover synchronization, and batch rendering, accelerating publishing velocity by **300%**.
- Directed character design consistency, video SEO, and multi-channel distribution strategies, driving rapid organic subscriber acquisition and high audience watch-time retention.

KEY TECHNICAL PROJECTS & IMPLEMENTATIONS

Autonomous Multi-Agent CRM & Business Lead Engine

`Python • n8n • Gemini API • Webhooks • CRM`

ENTERPRISE AI & WEBHOOK

- Architected an enterprise lead capture infrastructure triggered instantly via webhook events from web landing pages, social inquiry channels, and custom contact forms.
- Engineered autonomous agent intelligence to parse customer requests, extract qualification parameters, and dispatch personalized responses within seconds.
- Connected pipelines directly to internal databases and CRM dashboards with instant WhatsApp/Email alerts, boosting qualification speed and closing rates by **80%**.

Interactive 3D / Retro Portfolio & Web Automation Showcase

`Next.js • Three.js • TypeScript • Tailwind CSS`

FULL-STACK WEB

- Developed an interactive, retro-inspired web showcase demonstrating live AI automation architectures, telemetry dashboards, and component showcases with butter-smooth **60 FPS** WebGL rendering.
- Employed strict TypeScript architecture, component-driven UI patterns, zero layout shifts, and mobile-first responsiveness across all screen breakpoints.

Automated Video Production & Generative Audio Suite

`Python • FFmpeg • TTS Models • Generative Video`

MULTIMODAL AI

- Built an automated media processing pipeline in Python utilizing FFmpeg complex filter graphs to synthesize visual frames, neural voiceovers, and subtitles into broadcast-quality video files.
- Automated metadata tag generation, thumbnail creation, and batch scheduling, eliminating 15+ hours of manual post-production labor per week.

EDUCATION & PROFESSIONAL CERTIFICATIONS

Professional Certification in AI Automation & App Development — As-Sunnah Skill Development Institute (ASSDI)

`3-Month Intensive Program | Dhaka`

Curriculum Focus: Multi-Agent AI Systems, Enterprise Workflow Automation, Custom API & Webhook Engineering, Cross-Platform App Architecture, and Digital Systems Deployment.

Higher Secondary Certificate (HSC) — Science — Dewanhat City Corporation College

`Passing Year: 2024 | Chattogram`

Result: GPA 3.83 / 5.00 | **Group:** Science | Chittagong Education Board

Secondary School Certificate (SSC) — Science — Chittagong Municipal Model High School

`Passing Year: 2021 | Chattogram`

Result: GPA 4.50 / 5.00 | **Group:** Science | Chittagong Education Board
