Education & Certification

As-Sunnah Skill Development Institute Dhaka, Bangladesh

Professional Program in AI Automation & Digital Technologies *2026 - Present*

Relevant Coursework & Focus: AI Workflow Automation, Business Process Optimization, Custom AI Agent Implementation, API & Webhook Integrations, Web & Application Development, Meta Marketing & Analytics, Multi-Platform Digital Systems.

Experience

Karvion Labs github.com/karvionlabs

Founder, Assistant Director & Lead AI Automation Specialist *2026 - Present*

A digital innovation and technology initiative focused on helping brands and businesses streamline operations through custom AI automation workflows, scalable web and mobile applications, and data-driven Meta marketing strategies.

- Architected and deployed end-to-end AI automation workflows that connect disparate applications and APIs, eliminating repetitive manual processes and optimizing daily operational efficiency.
- Designed and developed responsive websites and cross-platform mobile applications tailored for high user engagement, clean usability, and seamless backend integration.
- Directed and executed targeted Meta marketing campaigns across Facebook and Instagram, utilizing audience segmentation, pixel tracking, and conversion analytics to maximize ROI.
- Spearheaded content strategy and multi-platform community growth across official YouTube and Facebook channels, establishing a strong and consistent digital brand presence.

Karvion English Cartoons YouTube & Facebook

Founder & Creative Director *2026 - Present*

An educational media platform across YouTube and Facebook dedicated to making basic English language learning accessible, engaging, and practical through structured animated storytelling.

- Engineered automated content production pipelines integrating AI tools for script refinement, voiceover synchronization, and episode scheduling to accelerate publishing workflows.
- Directed curriculum design and visual storytelling for beginner-level English learners, driving organic audience retention and active community engagement across social platforms.

Projects & Initiatives

AI Business Workflow & Lead Automation System Karvion Labs

Lead Automation Architect *2026 - Present*

Designed and implemented an automated client acquisition, CRM syncing, and smart response ecosystem utilizing modern AI agents, webhook triggers, and multi-step workflow orchestration.

Interactive Portfolio & Digital Showcase github.com/karvionlabs

Creator & Developer *2026 - Present*

Engineered a classic retro-inspired interactive web showcase highlighting AI automation architecture, full-stack web/app development projects, and digital marketing case studies.

Skills

Core Expertise & Automation

AI Workflow Automation • Custom AI Agents • API & Webhook Integration • Business Process Automation • Prompt Engineering • No-Code / Low-Code Ecosystems
